## Handheld GPS Bundled System for Agriculture Professionals

A great tool for producers and agricultural professionals:

- ◆ Mark soil test points, rocks, weeds, etc.
- ◆ Outline field or plot boundaries and calculate acres
- ◆ Create points and field outlines that can be easily copied to a computer and used in ArcView, GoogleEarth, etc.
- ◆ Search for and navigate to 1/4 sections
- ◆ Add Custom Maps (such as orthophotos)

**GARMIN**  
AUTHORIZED DEALER

### Complete system includes:

- ◆ Garmin GPSMAP 62s receiver
- ◆ USB cable, carabiner clip, external roof antenna and carrying case
- ◆ Vehicle mount kit, including 12V adapter
- ◆ Loaded internally with 1/4 section lookup capability for all of Manitoba, Saskatchewan or Alberta
- ◆ TOPO Canada — maps for GPS and computer, with utility software
- ◆ Toll-free technical support
- ◆ Full one year warranty
- ◆ \$619 — does not include shipping and taxes

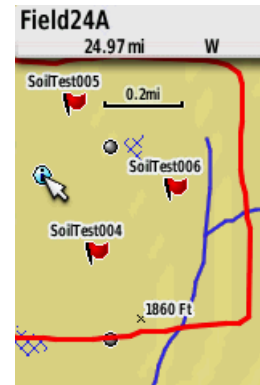

Manitoba SkyView puts high resolution colour images on your compatible Garmin GPS and computer. (Available for \$37-\$69)

**NEW**

### Sample Screen Shots Illustrating :

- ◆ 1/4 section lookup
- ◆ Field boundary
- ◆ Soil test points
- ◆ Custom map (orthophoto)
